All of our systems carry a wide selection of music that ranges from the earliest 1906 recordings to today's latest releases. We do not carry entire albums or discs, but the proven chart hit singles that everyone knows and is one of the widest, largest most up to date libraries in the area. Your professionally trained Disc Jockey will "read" the crowd and play the appropriate music to keep you and your guests entertained.

Please keep in mind that even though this is your day, that your elders (and elderly) may not have your same musical taste, not to mention whoever may be footing the bill for it. Our operators are trained to keep a balance, and these may not be played "back to back", but instead, spread thru the evening to where it best suits the crowd overall. The idea is to make it a memorable, pleasant, entertaining time for all.

Rule of thumb is we can usually fit around ten songs per hour and will work yours in as they fit. So for most newer music in a five hour reception you will hear around 50 songs total for the event. Around 70 if playing older music. Less than that for Disco and Techno and Classic Rock.

Time has proven that variety is key, and nobody wants a steady diet of anything.

If you like, please use the "Top 10" space below to list the songs you'd most like to hear.
